

ARIZONA COURTLINES, INC. (ACI)
VB-NA (ACI MODEL #)
NET ANTENNA AND BOUNDARY MARKER

Net antenna / boundary marker assembly is made of heavy white vinyl with double stitching. The vertical 2" vinyl strip is used to define the boundary line on the net. The net antenna is used to define the boundary line above the net. The net antenna is made of fiberglass and has a red and white stripe design for maximum visibility. The antenna / boundary marker vinyl wraps around the top and bottom cables/ropes of the net and is easily attached to the net with included laces.
